Bring the family and invite your fellow breeders and commercial cattlemen to be a part of this exciting annual Oklahoma Hereford event!

14th Annual Herefords in Native America Sale

Welcome to the 14th Annual Sale

Dear Hereford Friends & Cattlemen:

On behalf of the members of the Oklahoma Hereford Association, welcome to the 14th Annual Fall State Sale, which will be held again at the Brooks Cattle Company sale facility at Marietta, Oklahoma.

This year's offering includes an excellent set of stout, service-age, trich-tested bulls. These powerful bulls exhibit solid phenotype and a nice set of numbers along with a variety of pedigrees from which you can select your next herd sire.

The registered females include one of the top sets of bred heifers and pairs that we have offered. They are the replacement kind and quality you will like. A select group of choice open show heifer and brood cow prospects also sells.

The commercial heifers are an exceptional group of commercial Hereford and black/white-face F1 bred and open heifers.

The demand for top quality Hereford seedstock has never been better. These cattle are consigned by some of the top breeders not only from Oklahoma but from other states as well.

We hope you will join us for the OHA annual meeting Sunday evening and for the sale Monday. Come enjoy the fellowship of your fellow breeders. All are welcome!

We look forward to seeing you sale day. If you have any questions, please give us a call at (405) 641-6081, Matt, or (405) 464-2455, Dustin.

Thank you for your interest!

Matt Sims *Dustin Layton*

Directions to the Brooks Cattle Company Sale Facility

Monday, November 21st, 2016 ... Marietta, Oklahoma

Sale Terms & Conditions

BIDDING

All cattle will be sold to the highest bidder. The auctioneer in charge of the sale will settle any disputes with regards to bids, and his decision will be final.

ANNOUNCEMENTS

Corrections or additions to any information in the sale catalog will be announced from the auction block prior to the selling of the animal, and such announcements will take precedence over printed material. We reserve the right to withdraw any sale lot not meeting our specifications prior to sale time. Animals that are carriers of known genetic abnormalities will be indicated in the sale catalog and/or announced from the auction block.

It is the responsibility of the seller to provide the sale manager, in writing, prior to the sale, a listing of corrections of information printed in the sale catalog.

PAYMENT TERMS

All sales are for immediate cash settlement unless other credit arrangements have been established between buyer and seller prior to the sale.

BUYER'S RISK

The animal becomes the property and risk of the buyer as soon as sold, but it shall be the responsibility of the seller to see that animals are properly cared for, free of charge to purchaser, until delivered to buyer or until the expiration of 24 hours after the sale, whichever comes first.

CERTIFICATE OF REGISTRATION

Seller shall transfer a registered breeding animal to buyer within 10 days of settlement. No animals will be transferred until paid for in full.

The seller guarantees that the animal is registered according to the rules of the AHA and that the pedigrees of all animals are registered in the Herd Book of the AHA, with the exception of stated commercial females selling.

If a female is sold bred and carrying the service of bulls requiring A.I. certificates, said certificates shall be provided by the seller unless otherwise stated.

RIGHTS TO GENETIC MATERIAL

Rights to genetic material for purposes of cloning an animal shall be transferred to the buyer with a legal bill of sale unless otherwise specified by the seller in the terms and conditions and/or the bill of sale.

AHA EXPECTED PROGENY DIFFERENCES (EPDs)

Expected progeny differences provided to Hereford breeders enrolled in the AHA TPR program are statistical predictions, or estimates, of expected performance of future progeny, not guarantees of performance. EPDs reported were current as of 10/28/16. EPDs are continuously being updated and can be viewed at www.hereford.org.

HEALTH

All animals will be eligible for interstate shipment as required by federal regulations. All service-age bulls have been fertility tested and tested for trichomoniasis. Buyers should be aware of their own state's specific health requirements.

BREEDING GUARANTEES

All animals are guaranteed to be breeders with the exception of (a) calves under 12 months of age at time of purchase; (b) any female that is placed in an embryo transplant program and subjected to super-ovulation; or (c) gross negligence on the part of the buyer.

Sellers guarantee that bulls are breeders if the bull is at least 12 months of age at the time of the sale and is not turned with cows before 14 months of age. A bull can also be guaranteed a breeder if he has passed a breeding soundness exam performed by a competent veterinarian or reproductive technician. Any agreement with respect to the ability to freeze semen shall be a separate agreement between buyer and seller.

Females sold as safe in calf have been examined by a competent veterinarian or have been guaranteed safe in calf through a blood test.

Open females are guaranteed to be without calf.

Any agreement with respect to Embryo Transfer production shall be a separate agreement between buyer and seller.

NOTE

All persons who attend the sale do so at their own risk. Neither the owners, the sale managers, Brooks Cattle Company nor the Oklahoma Hereford Association assume liability, legal or otherwise, for any accidents or loss of property. As the sale manager, Matt C. Sims Auction, Inc. and Layton Auction Services, LLC are only agents for the seller and have no responsibilities other than those involved in conducting the sale.

*For additional information refer to the American Hereford Association's Articles of Incorporation, By-laws and Rules and Regulations of said Association.

Sired by the multi-trait leader MSU TCF Revolution 4R and stemming back to LCC Merry Time 244, a mainstay donor for the Lowderman family in Illinois, Merry 221 was purchased from the Lowdermans for Miranda to show and has turned into one impressive cow in production. Long bodied, cool fronted and super maternal best describes her. Her 2016 calf, sired by Catapult 109, is being retained for Miranda to campaign next year. Merry 221 is very fertile, settling to the first AI service each time.

Sired by Times Up, the high selling individual in the Grandview/CMR Dispersal at \$115,000. The dam is a direct daughter of the maternal giant Lambeau 17Y and was a feature female in Express Ranches' 2015 Hereford Production Sale.

Bonnie Up is something to see in person, as she is ultra cool fronted, square hipped, big boned and big ribbed plus has big hair. Very smooth in her design, this royally bred female can certainly stand some heavy competition.

Lots 6 and 7 are full sisters sired by the ever-popular 88X, whose progeny remain in high demand in all segments of the beef industry. Just analyze all the good in this pair of flush sisters, as they combine rib, hip and bone and do it all in a very attractive package. Their donor dam, Melody 416Y, is a powerful donor that serves in the Bryan McKay program. Maternal sisters to Lots 7 and 8 have captured banners at all levels and have commanded top dollar year after year.

This mating combines power with maternal excellence. Here lies two future donors that will be great additions to any program.

Check out this powerfully constructed beast that stems directly from Full Throttle and 8203. If you like your females super deep and super cowwy, you will love this female. Red eyed, red necked and red to the ground, 557 is certain to grab your attention. This female has "cow power" written all over her.

We selected this tremendous female from the Hoffman herd as a heifer calf and she has continued to impress, developing into one of our top cows. If it were not for the necessity of selling some females to compensate for medical expenses, this one would not be leaving our herd. Her dam has been a consistent producer at Hoffman's and originated from the Oschner herd. The herd sire prospect at her side and her son FMH Victor Excel 3Z, who also sells in this sale as Lot 91, are examples of her production capability. Donor candidate.

► PE 7/1/16 to 11/14/16 to DRM Victor Mark 14B (Lot 88).
 Pregnancy status available sale day.

The sire of Lot 68, Sensation 028X, is the Hereford breed's leading high accuracy calving ease bull that excels for both maternal and end product value. Sensation's progeny are attractive and conservatively marked with above average capacity, muscle and stoutness for the calving ease he offers. This son proves that point with +7.1 CED and -0.2 BW EPDs. Dam was a class winner in Reno and posts 7@96.6 for birth, 6@101.5 for weaning and 2@103.5 for yearling. Maternal brother sells as Lot 69.

74-51 selected this bull from the 2015 Tennessee River Music Bull Sale to use on their Hereford and Brahman cows. He is a maternal brother to the two-time Junior National Hereford Expo Division Champion RRO TRM Grace 1125 ET, who was also named Grand Champion at the 2012 Tulsa and Oklahoma state fairs, Reserve Grand Champion at the 2013 Oklahoma Youth Expo and Reserve Division Champion at the 2013 Denver and Fort Worth national shows. A full sister to Lot 78 sold to Fenton Farms for \$9,900 in the 2015 Dixieland Delight Sale.

4090's dam, Molly, has been a consistent donor in the TRM herd. Molly was one of Randa (Owen) Starnes' most competitive show heifers, winning her division at both the National Western Stock Show and the Junior National Hereford Expo. She records 4 at 100.5 for WW ratio.

4090 posted a ribeye ratio of 115.

4030 is definitely one of the best bulls we have ever brought to this sale. He has it all—performance, pedigree and phenotype. His dam is a perfect uddered cow who is double-bred back to the dam (207) of the legendary Blaze bull. This bull's sire is one of the very elite bulls in the breed for Milk and M&G EPDs. This bull's weaning weight was 766 with an 81 pound birth weight. This will be a very easy bull to find in the pens.

A three-year-old son of Trust 100W out of a Moler daughter. We have used 30A in our breeding program the last couple of years. We are selling him only due to several daughters being retained to build the future of our herd. His calves are very stylish. He is a large framed bull that is easy fleshing and has a super disposition. Excellent EPD profile across the board, excelling in every performance category.

Lot 90 combines the many-time leader in registrations 719T with H Lady Tundra 0049, who sells as Lot 16 in this offering.

3Z has done a great job as a herd sire at Foster/Meeks, but with all the progeny we have retained in the herd, it is necessary to share his genetics at this time.

Daughter sells as Lot 4.
